

Licensed

The State of Michigan currently does not require Assisted Livings to be licensed. Arbor Woods chooses to be licensed for peace of mind for our residents and families.

Licensed Assisted Livings are :

- Held up to high standards, and are enforced by a 3rd party.
- Licensed communities are reviewed annually.
- Investigations and Surveys completed by the State are found online at www.michigan.gov.
- Many Long Term Care Insurances also require the community to be licensed for reimbursement.
